

How Can We Help You

Dr. Silver's philosophy is about prevention and caring for the whole person. He is a Board Certified Diplomate and Fellow of the American College of Obstetrics and Gynecologists. In addition he also does his own:

- Amniocentesis
- Infertility
- Ultra Sound(s)
- Bladder Suspensions
- Vaginal vault reconstruction
- Tubal reversals
- Laser procedures
- And Preventive, and Primary women's healthcare!

"I'm 83 years of age... I saw Dr. Silver because of bladder problems. He told me that I needed reconstructive surgery. He repaired my vagina and prolapse. I have not stopped since, except to tell everyone with a problem to go to Dr. Silver. He is God's gift to women."

Let our established patient's tell you about Dr. Silver

"Thank you for all you have done. I am grateful for your support you and your staff provide. The gentle touch and good humor is a welcome and calming feeling during a stressful and joy filled time."

Michael & Darla Roberts
Letter on file

"I began using Dr. Silver when I became pregnant with my third child. It was by far the most positive experience of the three.

Unlike so many other Doctors, he never made me feel guilty about the extra pounds and assured me he would deliver my baby — ON CALL OR NOT. That's what separates Dr. Silver from the rest — professional, knowledgeable and compassionate medical care — With a little extra T.L.C."

"Women's Healthcare"

One Doctor for all
of your medical needs

OB GYN

Your Healthcare Specialist

Your healthcare partnership is one of the most important decisions you can make. You must form a link with your doctor. A doctor you have faith in & can trust with your life. A doctor who is intelligent, well educated and has exceptional training. A doctor with the desire to continue his medical education beyond medical school in the ever-changing world of Medicine. Just about everywhere you go, you are known by your Social Security or Drivers License number. Isn't it nice to find a doctor who knows your name and personally cares about you! Dr. Silver will give you his promise to treat each patient like "they are part of his family" He will recommend healthcare choices to you as if he was caring and treating his wife! Thank you for choosing Dr. Silver, welcome to "our" family!

Meet Dr. Silver!

Dr. "Mitch" Silver and his family have made Nacogdoches their home since 1995! He and his wife Cathy have two sons. Joshua is 18 and his brother David is 15. Dr. Silver grew up on the East Coast. He was recruited and completed his undergraduate degree at the University of Washington in Seattle on a Rowing Scholarship. * He worked several years in Research at the University of Washington before deciding that he enjoyed his interaction with hospitalized patients on the "Blood Draw Team", much more than his research on rats! During that time, however, he co-authored and published several papers on Artherosclerotic Heart Disease.

Qualifications

Dr. Silver attended Medical School in Des Moines, Iowa from 1983 to 1987 on an Army Military Scholarship. At the College of Osteopathic Medicine and Surgery he was taught D.O. Philosophies about Prevention & Caring for whole-person, rather than the 'heart' or 'hysterectomy' in room 201!

This has been the Hallmark of Osteopathic Medicine since its formal beginning in 1982. This is one of the things that sets Dr. Silver apart from most others! An Osteopathic Physician or 'D.O.' seeks not only to cure physical ailments, but also to encourage healthful living to prevent disease and illness. Dr. Silver leads by example, and can frequently be found at the court club — as some of you already know.

D.O.'s are fully trained and licensed upon graduation. They may enter any medical specialty, receiving additional postgraduate residency training, as did Dr. Silver when he chose Obstetrics and Gynecology. Dr. Silver sat for the same Medical Board licensing exams as his M.D. colleagues. In addition Dr. Silver passed Oral & Written Exams and is a 'Board Certified' OB/GYN.

- National Honor Society, Sigma Sigma Phi.
- National Federal Licensing Exam. (FLEX).
- American Brd of Obstetrics & Gynecology.
- Brd Certification, Diplomat, Fellow of the American Brd of Obstetrics & Gynecology.
- Reed Scholarship / Academic Achievement.
- Resident Award / Maternal / Fetal Medicine.
- Resident Award for Research (WBAMC).

Military Service

Dr. Silver spent 8 years in the Army stationed at Fort Bliss & Ft. Hood. He served his country & earned numerous accommodations. While in the Army he literally treated thousands of patients — the wives of service men. At the Army's regional referral center he had the opportunity to see, learn and treat many illness' and conditions not normally seen by the typical OB/GYN resident.

At Ft Hood. he was assigned to run the entire OB/GYN Dept. There he oversaw 300 deliveries every month, as well as a clinic that treated 8-10,000 women a month! HE was asked to perform major surgery on a 3-Star General's Wife Mrs. Jane Taylor as well as the Hospital Commander's wife, Mrs. Susan Hughes. This rigorous and extensive training, allows Dr. Silver to perform procedures that previously patients could only get out of town in larger Medical Centers. The benefit to you is convenience and complete Patient care right here at home!... Dr. Silver's personal commitment is "to provide the highest quality of patient care imparted with a sense of warmth, caring, pride, personal growth and team spirit. My office staff must share compassion and concern for all patients whether they need assistance with medication, surgery for a troublesome physical condition or patient education to enhance their well-being." We will strive for excellence in all we do and be:

- Held to the highest Ethical & Morale Conduct within my Medical practice at all times.
- Continue our Medical education, creativity & innovation to treat all patients with highest level of respect and consideration.
